1. Target individuals

Individuals entering Macao from Hong Kong Special Administrative Region, Taiwan region or foreign countries.

2. Period

Beginning from the day of entry, until the 5th day after that.

3. Important Notes

- 3.1 Upon entry into Macao, the “Macao Health Code” will be displayed in yellow colour. An individual is not allowed to participate in meal gatherings or other gatherings.
- 3.2 For five consecutive days counting from the day after the day of entry, it is required to perform a rapid antigen test and upload the result every day.
- 3.3 After obtaining a negative RAT result on the 5th day counting from the day after the day of entry, the “Macao Health Code” will be converted to green.

Management**

- 3.4 If an individual gets a positive result from the above rapid antigen tests, the “Macao Health Code” will be converted to red and the person concerned will be subject to home isolation measures for infected people. For further information, please refer to “Important Notes for Home Isolated medical observation of Covid-19 Cases”.
- 3.5 Until 00:00 on the 9th day after the date of entry into Macao, travelling to the Mainland via Macao is not allowed.
- 3.6 For more information, please refer to the “Prevention of Novel Coronavirus Pneumonia - Precautions for Self-Health Management”.

Precautions for Self-Health Management

Please refer to the Special Webpage against Epidemics for other guidelines in relation to personal hygiene and environmental disinfection: <https://www.ssm.gov.mo/PreventCOVID-19>.
